Dr. Bithin Datta
Professor

June 17, 1999

Professor Dean D. Steele
Associate Professor
Agricultural and Biosystems Engineering Department
North Dakota State University
Fargo, ND 58105-5626
U.S.A.

Dear Professor Steele:

Mr. Arun Borgohain, who had credited a course (Advanced water Resources Systems Analysis) offered by me as a visiting faculty, at A.I.T. Bangkok, has requested me to send a recommendation to you. I understand that Mr. Borgohain is applying for Ph.D. level graduate studies in your Department. The recommendation/evaluation is enclosed. I hope you will give serious consideration to his application.

Thanking you.

Sincerely,

Bithin Datta
Professor of Civil Engineering

22/6/99.

Dear Arun:

Thanks for the T-shirt. Although it looks very "Godly". Maybe I should display it in some proper place. Thanks again for the thought. I have sent the recommendation letter to Prof. Steele. Here is a copy of the cover letter. Keep in touch. Best wishes.

Dear Arun Borgohain

Thank you for your recent inquiry indicating your interest in graduate study in Biological and Agricultural Engineering at Kansas State University.

Enclosed are an application form for admission to the Graduate School, affidavit of financial support, and information sheets on Biological and Agricultural Engineering degree programs. Please complete the forms and return them to me. Your application for admission to the Graduate School will be evaluated by a committee within the Biological and Agricultural Engineering Department upon receipt of the completed forms, required transcripts, three letters of recommendation, TOEFL score, and the statement of objectives. There is a \$25.00 application fee for all prospective international students. Please submit with your application a money order for \$25.00 (U.S. Dollars) payable to Kansas State University Graduate School.

A Test of English as a Foreign Language (TOEFL) score of 550 or higher is required of those students whose national language is not English. This level of competency is required to assure that progress towards a degree is not jeopardized by language difficulties. We will admit students who meet all requirements for admission except for the TOEFL score to the Graduate School on provisional status. The student may enroll upon scoring 550 or more on a subsequent TOEFL or successfully completing the English Language Program at KSU.

Enclosed is a listing of graduate faculty members in the Department of Biological and Agricultural Engineering along with their research interests.

Enrollments during the calendar year begin in early January for the spring semester, early June for the summer session, and mid-August for the fall semester. Applications should reach Kansas State University at least four months prior to your expected date of enrollment.

The Department of Biological and Agricultural Engineering offers Graduate Research Assistantships to qualified applicants. The decision on assistantships will be based on credentials of the applicants and funding availability.

Don't hesitate to contact me if you have further questions about the graduate program in Biological and Agricultural Engineering. If you have access to the Internet, the easiest way to contact me is through the e-mails. My e-mail address is zhangn@ksu.edu.

Sincerely,

Naiqian Zhang, Ph.D.
